Mr. Dismas Benedict
Chief Operations Officer

In Tanzania mining industry untapped potential abounds unlike anywhere else. It's high time for Tanzanians to harness Tanzania's abundant mineral wealth to its fullest extent. While the world rushes to capitalize on Tanzania's mineral-rich soil, Tanzanians have often stood on the sidelines, doubting our own capabilities. It is true that we may lack the financial muscles for large-scale mining ventures, but it's a missed opportunity not to provide a conducive environment for investors to operate in Tanzania at reduced costs by fully engaging readily available local resources.

As the Tanzanian government invests tirelessly in critical infrastructures, it lays the groundwork for attracting more investors. This presents an open invitation for the private sector to seize every opportunity that arises. YAYA Resources emerges on the horizon, embodying Tanzanian potential. Started as a mere dream, our sheer determination earned us remarkable trust to become a premier mining contractor in a very short time. And we believe the best is yet to come. I picture that day when YR becomes the preferred contractor for every investor eyeing Tanzania's mining sector.

As an investor in Tanzania mining or one considering it, why hesitating? Entrust us to help you shape your cost profile. We do understand Tanzania's challenges like no other, having served the mining industry for many years. Now is the time for a monumental shift, leveraging local resources to transform the industry to make Tanzania the lowest cost mining investing country.

Our Story

YAYA RESOURCES is a Tanzania local owned mining contractor formed by ex-mining professionals with unanimous mining and construction background. Our story is one of visionary individuals, envisioning a premier destination for any investor eyeing the Tanzanian mining sector. The company bring together an abundance of industry expertise and seasoned professionals, blending years of experience with the drive of youthful, ambitious engineers to excel dynamically.

Established in 2019 from the visionary aspirations of two individuals who recognized untapped potential in the mining sector in Tanzania, YAYA RESOURCES has swiftly grew to comprise over a hundred employees and rapidly expanding mining fleets. We proudly serve as a key mining contractor for **Shanta Mining Company LTD** and hold promising prospects with newly emerging mines.

With a steadfast vision to become a premier mining contracting company in Tanzania, we are committed to bridging the gap of Tanzanians participation in the industry. Our dedication lies in delivering unparalleled service, ensuring our clients receive exceptional value for their investments.

We live by our values of **customer focus, people as a center of our success, holding our projects in partnership with our customers in a win - win situation, trust in everything we say and do, transparency in all our deeds and makings, consistency, quality** and better world for every one through enhanced environmental health and safety practices.

OUR MISSION

To deliver value through provision of best alternative working solutions, state of the art, technologies, tools, machineries and innovative processes to increase productivity and reduce costs.

OUR VISION

Be the Leading Mining Contracting Company in Tanzania

MINING & CONSTRUCTION SUPPLIES

Our supply business units focus on supply of chemicals, reagents, cement and steel. We bridge the supply gap in mining and construction to allow our clients to direct their resources and efforts on the core business with aim of optimizing in project lead time, costs optimization and working capital management.

We seek and obtain dealership and distribution agency contracts with different manufacturers of mining and construction materials both locally and international to ensure better and competitive prices for our customers. Our use of sophisticated fleet management programs ensures smooth deliveries that complement to our robust procurement process, pre-contracted prices with manufactures to ensure consistent and predictability of prices.

The core objective is to deliver profit to our customer through costs minimization, efficiency and timely supply of materials, consistently at high quality. Providing a hedging opportunity for the uncertainty of project costs as results of material and labor price fluctuation.

OUR SERVICES

Earth Moving

With promising capacity using Caterpillar fleets we move the earth. Directly on site or indirectly, our equipment reliability is always our top most priority. Our fleet register is actively growing with technology and demand.

OUR SERVICES

Civil Engineering

From SMART BUILDERS to YYR, Civil engineering is at the heart of our core businesses. With countless projects from mid-size to a sub contracted complex civil engineering projects under SMART Builders. We are forward looking for more projects in a doubled capacity of YAYA resources.

ROCKS CRUSHING AND AGGREGATE SUPPLY

The need for huge tonnes of aggregate in both mining and construction has always been a pushing factor equipping us with variation of aggregate crushers both mobile and fixed, primary and secondary. Our partnership with foreign companies and manufactures has made it possible to meet customer requirement at very short lead time.

OUR SERVICES

Electrical Engineering

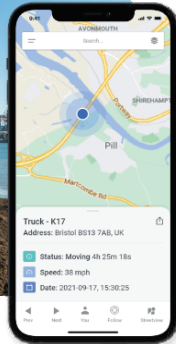

Yaya Resources has partnered with local and reputable foreign electrical engineering companies in High Voltage electrical project. With internal capacity challenges we were forced to train our staff abroad to deliver most competitive on this category. Well captured on our core values, our continues improvement is our tomorrow success in everything we do.

FLEET OPERATES IN THE BEST POSSIBLE WAY AVOIDING COSTLY SURPRISES

ATB Tracking Systems has offered us plentiful options in optimizing customer lead times and safety of our trucks and operators. Fleet management unit is designed to deliver the best on our garage facility, it is a standalone business unit independent from other business units. The unit ensures all our fleets and equipment are up and running all the time through routine checks, timely maintenance and scheduling.

Safety and Environmental Policy

Our Safety and environmental policy form part of our license to operate. This is a standalone document which forms a large part of our core values. Although we cannot put it all here, it is important to mention that by applying the highest standards of safety and environmental management, using technology people, natural resources and energy efficiently, recycling. Reducing waste and working to ensure safety of both our staff, our community and protecting biodiversity, we deliver significant cost savings to our customers, reduce future liabilities, optimizing output and above all help build strong stakeholder relationships. For more on this is available on our web page www.yayaresources.com

OUR PARTNERSHIP WITH INTERNATIONAL COMPANIES.

YYR entered into a strategic partnership with multiple international companies to first widening the scope of our operation outside Tanzania, and second to joint venture in Tanzania operation required by Tanzanian local content regulation. This relationship is aimed on at specific projects and does not bound us from executing some projects independently. Foreign companies JV provides additional capacity in terms of equipment and technical support while management and contracts admirations remains in hands of YYR.

Our Partners and Clients

Brands that we work with

We believe it takes a team to win. That's why we have partnered and work together with institutions, private companies, governmental bodies and foundations.

Our partners have worked with us to deliver ever more innovative, effective and successful projects and programmes and their support has been vital in achieving our Mission and Vision.

**RE: APPROVAL OF THE LOCAL CONTENT PLAN FOR YAYA RESOURCES
COMPANY LIMITED**

Kindly refer to the above-captioned subject.

2. The Mining Commission is pleased to inform you that your Local Content Plan submitted to the Mining Commission for Contractor Services to the Mineral right holders has been approved by the 17th meeting of the Local Content Committee held on 24th June, 2022. The approval has been granted as per Regulation 11(5) of the Mining (Local Content) Regulations, 2018.
3. Please be informed that the approved Local Content Plan is operative only for the period of one year from the date of this approval. In this regard you will be required to submit another annual Local Content Plan not later than 24th June, 2023. During this period, you will also be required to submit to the Mining Commission quarterly reports in respect to the performance of the local content plan.
4. Furthermore, in accordance to Regulation 37 of the Mining (Local Content) Regulations, 2018, you are required within forty-five (45) days of the beginning of each year to submit to the Mining Commission an annual Local Content Performance Report covering the period from when your Local Content Plan was approved.
